COCK, Inte-PRESIDENT OF WATERVILLE COE-LEGE. Maine. " From intimate personal acquaintance with Dr. D. Jayne, a regular student of the Medical University of Pensylvania, and an experienced, successful practitioner of medicine, I was prepared to appreclate the numerous testimonials in layor of his dif-ferent medical preparations much more highly-lian the great majority of those which are extensively eulogised. On trial of them in my own family and some of them personally, I have more than replied ed their favorable anticipations. They are what they profess to be not quack nostrums but skilfully prepared antidotes for some of the most afflictive of human diseases. I know that they are highly esteemed, and frequently prescribed, some of the most respectable of the regular prac titioners of medicine in this city and elsewhere. and I do not hesitate to commend them as a valuable addition to our materia medica, and a safe, as well as eminently useful remedy for the diseased.
